

## TALLER PRÁCTICO

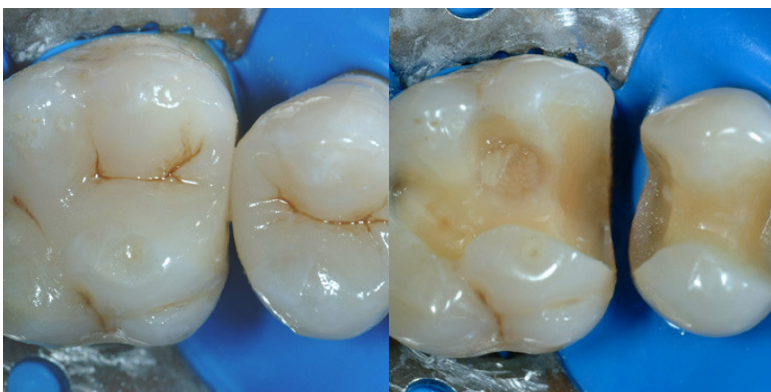

### LA RESTAURACIÓN DE LOS DIENTES ANTERIORES: TÉCNICA DE ESTRATIFICACIÓN Y ACABADO

Eficiencia, simplicidad y estética.

**¿Es posible una estética de calidad, simple y al alcance de todos?**

El Prof. Francesco Mangani nos propone un curso práctico en el cual desarrollará sus últimas propuestas para la utilización de composites de última generación.

Es una excelente oportunidad para aprender y debatir con uno de los más importantes referentes estéticos a nivel mundial que, por razones de agenda, lleva un considerable tiempo sin venir a España.
